Ms. Torie Ness
United States Senate – Office of Senator Thom Tillis
185 Dirksen Senate Office Building
Washington, DC 20510

Dear Ms. Ness:

Thank you for the opportunity to meet with you to discuss federal issues which impact Brunswick County. The Brunswick County Board of Commissioners greatly appreciates your openness to support legislation that enhances the lives of our residents.

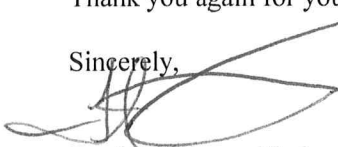

As you know, Federal policies can significantly impact our County's operations, budget, economic growth and development, and the overall well-being of our residents.

The Board of Commissioners requests your consideration of the following issues:

- Restoration of historical funding to the U.S. Army Corps of Engineers for shallow draft inlet dredging and maintenance
- Designating U.S. 74 as Future Interstate 74 from Whiteville to Interstate 140
- Securing federal infrastructure funding to expedite completion of the Cape Fear Crossing, which would provide another critical highway route between Brunswick and New Hanover Counties
- Securing federal infrastructure funding to expedite completion of the Carolina Bays Parkway, which would increase connectivity between Brunswick County and Horry County, S.C.
- Returning Brunswick County to the Wilmington Metropolitan Statistical Area (MSA)
- Providing financial stability to the National Flood Insurance Program without placing undue financial burdens on those insured by the program
- Minimizing or eliminating unfunded mandates to the states, which in turn often end up being passed on to local governments
- Critical funding to support substance abuse disorder treatment; continuation of funding at the current level for the 21st Century Cures Act would provide treatment services for an estimated 60 additional Brunswick residents

Thank you again for your time, your service, and your consideration of these issues.

Sincerely,

Frank Williams, Chairman
Brunswick County Board of Commissioners
